MASTERCLASS®
KITCHENS

-The Cocktail Cabinet (Connery) has been constructed using a cocktail dresser unit, wine rack inserts and a highline base unit.

-This design is available in any range.

-The following step-by-step process will show how to create this design:

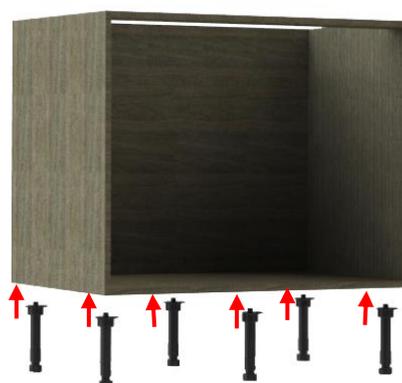

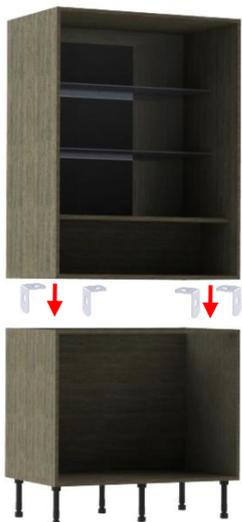

Fitting Process:

1

Refer to highline base cabinet (Key: 3)

• Remove drawers and place one side

2

Add legs onto highline base cabinet
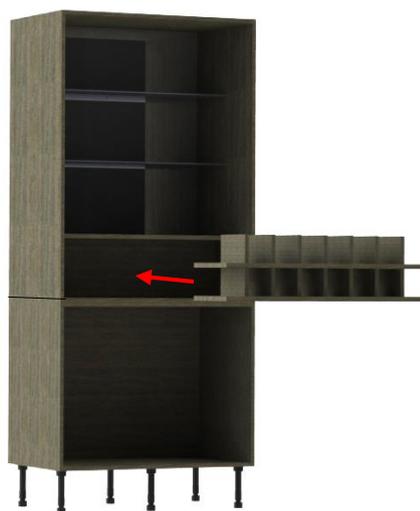

MASTERCLASS® KITCHENS

Preparation before fitting:

3

Offer the coktail dresser (Key: 1) to the drawerbox

- The face of the cocktail dresser sits flush with the face of the drawerbox unit to allow the doors to be parallel with each other
- Secure and fix from underside of drawer unit top rail

4

Refer to wine racks (Key: 2)

- Place the x2 wine racks on top of one another to form the double height
- Place the wine racks in between the two shelves at the base of the cocktail dresser unit
- Level and secure unit assembly
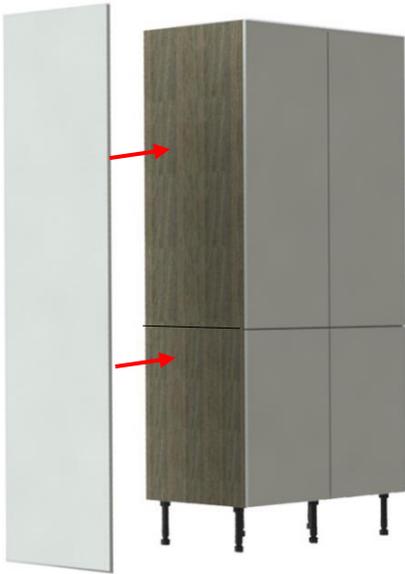

5

Re-fit internal drawers

6

Add the doors onto both the dresser unit and the highline base unit

7

Tall end panel (optional)

- Due to the visible horizintal joining line formed on the sides of the cocktail cabinet, a tall end panel will be needed in the case of an end run or standalone cocktail cabinet

Fit completed
